

**THREE-PHASE TL
INVERTERS WITH
THE MAXIMUM
EFFICIENCY AT
THE BEST PRICE**

10TL / 15TL / 20TL / 28TL / 33TL

A three-phase inverter family for domestic, industrial and large-scale PV plants.

Maximum efficiency at the best price

A single DC-to-AC power conversion stage with an advanced single maximum power point tracking system (MPPT), that makes it possible to harness the maximum energy from the PV array at the most competitive price.

Plug & Play technology

Extremely easy to install. The inverter connection is fast and simple. The country-specific configuration and language can be easily selected from the inverter screen.

Rugged design

Steel casing, especially designed for indoor and outdoor applications (IP65). Able to withstand extreme temperatures. The INGECON® SUN 3Play TL inverters have been designed to guarantee long life expectancy, as demonstrated by the stress tests they are subjected to.

Ease of maintenance

Internal datalogger for up to 3 months data storage. Control either from a remote PC or on-site from the inverter front keypad. Status and alarm LED indicators. LCD screen.

Easy to operate

The INGECON® SUN 3Play TL inverters feature a LCD screen for the simple and convenient monitoring of the inverter status and a range of internal variables. The display also includes three LEDs to show the inverter operating status. All this helps to simplify and facilitate maintenance tasks.

Software included

Included at no extra cost are the INGECON® SUN Manager, INGECON® SUN Monitor and its smartphone version Web Monitor for monitoring and recording the inverter data over the internet. RS-485 communications are supplied as standard. In addition, users can download the latest version of the firmware from the Ingeteam website: www.ingeteam.com, and update it using a simple SD memory card.

Standard 5 year warranty, extendable for up to 25 years

10TL / 15TL / 20TL / 28TL / 33TL

Different versions to choose from

In order to satisfy its clients' needs, Ingeteam has created different versions for the INGECON® SUN 3Play TL family:

- "S": Standard version
- "S+": Advanced Standard version
- "P": Premium version
- "P+": Advanced Premium version

All the versions are supplied with DC and AC surge arresters type 3. The "S" version represents the most basic model of all. It features a single MPPT input with terminal blocks. The Advanced Standard version also integrates a DC switch.

On the other hand, the Premium version includes two options for DC connection: conventional terminal blocks or fused and monitored PV connectors.

Moreover, it also features DC fuses, the input current measuring kit and a DC switch. The Advanced Premium version "P+" is supplied with DC surge arresters, type 2.

MAIN FEATURES

- MPPT system.
- 98.5% maximum efficiency.
- Digital inputs.
- RS-485 communications supplied as standard.
- Inverter firmware updating by the user through a SD memory card.
- Software INGECON® SUN Manager for PV plant access and data registration.
- Software INGECON® SUN Monitor for PV plant monitoring.
- LCD display.
- Easy maintenance.
- Display-configurable potential-free contact, to indicate insulation fault or grid connection.
- Plug & Play technology.
- Suitable for indoor and outdoor installations (IP65).
- High temperature performance.
- Different versions to satisfy every project needs.
- Compact design.
- Language, rated voltage and Country Code configurable by display.

PROTECTIONS

- Reverse polarity.
- Shortcircuits and overloads at the output.
- Anti-islanding with automatic disconnection.
- Insulation faults.
- Input and output overvoltages with type 3 surge arresters.

OPTIONAL ACCESORIES

- Inverter communication via Ethernet, GSM / GPRS or Wi-Fi. A second RS-485 communication card is available.
- Self-consumption kit.

BENEFITS

- The best possible price.
- High efficiency rates.
- Easy maintenance.
