

MAXIMIZING RUNNABILITY

3 good reasons to use the Capto for handling heavy fabrics:

1

The Capto greatly improves operator safety.

2

Easier handling of delicate or heavy fabrics.

3

It's safe, quick and reliable!

Improve safety

Handling of Paper Machine Clothing (PMC) during a machine stop can be a hard job. The **Feltest Capto** pullers help making the installation of Paper Machine Clothing a safer job. Safer for the operators, safer for the fabrics.

Ease and comfort are good for business

Machine stops should be as short as possible; hence Paper Machine Clothing must be installed as quickly as possible. The **Capto** helps to achieve that. The **Capto** puller gives the operators the ease and comfort necessary to do the job more safely, quicker, and with less effort.

Good for the operators, good for business.

- Self-latching - it will never fall off the fabric;
- Don't climb into the machine - use the **Capto** with a rope;
- Always easy to release - one handed operation.

MAXIMIZING RUNNABILITY

Developed for the paper industry

Just like the measuring instruments of Feltest Equipment BV, the **Capto** is developed by people who deal with the Paper Industry every day.

The **Capto** will keep its clamping strength on wet fabrics, is always easy to release and it withstands spray water, dust and corrosion.

The Feltest Capto comes with:

 User manual in 13 languages
(English, Arabic, Chinese, Dutch, Finnish, French, German, Italian, Japanese, Polish, Portuguese, Russian, Spanish, Swedish and Turkish)

 Exchangeable clamping plates

| Specifications | Capto |
|-----------------------|---|
| Maximum pulling force | 1000 N (approx. 100 kg / 220 lbs.) |
| Can be used on | forming fabrics, press felts, dryer screens |
| Maximum opening | 8 mm / 0.3 in |
| Clamping surface | 49 x 125 mm / 1.93 x 4.92 in |
| Clamping material | Natural rubber – alternatives on request |
| Frame material | Aluminum |
| Dimensions | 200 x 125 x 90 mm / 7.9 x 1.93 x 3.54 in |

Performing measurements of any kind on running paper machines is potentially dangerous and requires alertness, concentration and common sense.

The products of Feltest Equipment BV are designed and constructed to be as safe as possible for their intended use.

Feltest Equipment BV cannot be held responsible or liable in any way for injuries or damages that occurred using Feltest Equipment BV's products.
